## **Aransas County has Reported Four Additional Positive Test Results for COVID-19 June 26, 2020**

As of June 26, 2020, four additional positive test results for COVID-19 have been confirmed in Aransas County. The historical case count now stands at 16. Case numbers 13 and 16 are males in their 40's. Case numbers 14 and 15 are a female and a male in their 30's. The patients are currently isolated in self quarantine. DSHS (Texas Department of State Health Services) is supporting Aransas County in identifying any close contacts of the patients so they can be isolated and monitored for symptoms.

The (DSHS) Public Health Region 11 is reminding the public that it is conducting contact investigations on persons who have tested positive to determine possible exposure to others. If the health department has not contacted you, there is no need to take any action at this time.

The (DSHS) Public Health Region 11, Aransas County and City Officials continue to work together against COVID-19. All agencies are vigilant and reporting results for COVID-19 in the region. They are also working together to educate the public and practice social distancing.

The public can find up-to-date coronavirus information and what to do if you're sick, this can be accessed at [dshs.texas.gov](https://dshs.texas.gov). Additionally, testing information is available on the same website.
